

# WASDEV SOLANKI

Full Stack Developer

+92 303 3633206 | washuramk@gmail.com | github.com/wasdevsolanki | wasdevsolanki.com

## PROFESSIONAL SUMMARY

---

Results-driven Full Stack Developer with 3+ years of experience building scalable web applications using PHP, Laravel, JavaScript, React, and Node.js. Proven track record of optimizing API performance (40% response time reduction), improving page load speeds (30% bounce rate reduction), and increasing user engagement (50% improvement). Experienced in full SDLC, RESTful API development, database design, and cross-functional team collaboration.

## EDUCATION

---

### Bachelor of Science in Software Engineering

IICT, University of Sindh • 2017 – 2020

Studied core software engineering concepts, including data structures, database design, and web technologies. Developed hands-on experience in PHP, JavaScript, and MySQL, with practical projects involving REST APIs, backend systems, and full-stack web applications.

## PROFESSIONAL EXPERIENCE

---

### Full Stack Developer | DZN Solutions

Karachi, Pakistan • May 2023 – Present

- Develop and maintain full-stack features for e-commerce platforms, airline reservation systems, pet QR tracking systems, and inventory management applications.
- Design and integrate RESTful APIs using Laravel, AJAX, jQuery, and SQL to power frontend interfaces and third-party service connections.
- Collaborate with cross-functional teams to deliver scalable, responsive web solutions using Bootstrap and modern JavaScript.
- Perform database design, optimization, and administration using MySQL and Microsoft SQL Server.

### PHP & Laravel Developer | QF Networks

Karachi, Pakistan • Jan 2023 – Apr 2023

- Customized WordPress plugins and built new features using PHP, Laravel, JavaScript, jQuery, AJAX, HTML/CSS, and Google APIs.
- Managed web hosting infrastructure, database administration, and project lifecycle oversight.

### Web Developer – Training | Hidaya Institute of Science & Technology

Karachi, Pakistan • Jun 2021 – Oct 2021

- Completed intensive 5-month training in PHP 8 (OOP), JavaScript DOM, Bootstrap 5, AJAX, SQL, and XAMPP; applied skills in form validation, session management, and error handling.

### Web Developer (Remote) | HAZ Software Solution

Remote • Jun 2021 – Present (Project-Based)

- Developed backend systems using PHP and MySQL, handling database design, PHP programming, testing, and debugging for client projects.

## TECHNICAL SKILLS

---

<b>Frontend</b>	HTML5, CSS3, JavaScript (ES6+), React, React Native, jQuery, Bootstrap 5, Tailwind CSS, Responsive Design
<b>Backend</b>	PHP (Core & Laravel), Node.js, Express.js, RESTful APIs, WebSockets, AJAX
<b>Databases</b>	MySQL, SQL Server, MongoDB, Database Design & Optimization
<b>Tools &amp; DevOps</b>	Git, GitHub, NPM, XAMPP, Chrome DevTools, Stripe Payment, Google Maps API, SERP API, Face-API
<b>Concepts</b>	OOP, MVC Architecture, Agile/Scrum, API Integration, LMS, QR Systems, E-Commerce

## SELECTED PROJECTS

---

### The Kapaas – E-Commerce Platform

**Tech Stack:** Laravel, Bootstrap, jQuery, Ajax, Stripe, MySQL

Built a full-featured clothing brand e-commerce site with product management, shopping cart, Stripe payment integration, DataTable modules, and carousels. Handled complete frontend and backend development.

### Woofio – Pet Tracking Web System & Mobile App

**Tech Stack:** Laravel, React Native, Google Maps, QR Scanner, MySQL

Developed a QR code-based pet registration and tracking system. Pet owners manage pets via a dashboard (breed, vaccinations, QR codes). Lost pet finders can scan QR codes to access profiles and share location. Mobile app released on Apple TestFlight for iOS and Android.

### Slot Gaming Management System

**Tech Stack:** Laravel, Face-API, JavaScript, jQuery, Bootstrap

Built a large-scale gaming management platform with Super Admin, Game Owner, Room Staff, and Player roles. Features include player face recognition, daily attendance records, machine readings, and point assignment.

### LMS – Learning Management System

**Tech Stack:** Core PHP, MySQL, Bootstrap, JavaScript, AJAX

Developed a multi-role LMS with Admin, Teacher, and Student roles. Teachers create courses and upload materials; administrators manage users and system settings.

### ADA Chrome Extension

**Tech Stack:** Laravel, Google Search API, SERP API, JavaScript, Bootstrap

Built a Google Chrome Extension that fetches, organizes, and displays Google Search API results efficiently within the browser.

### Quiz System

**Tech Stack:** Laravel, Bootstrap, jQuery, AJAX, MySQL

Developed a quiz platform with Admin, Teacher, and User roles. Admins manage users and results; teachers create and assign quizzes; users take quizzes and view their scores.
